

ASCLE® FILTRATION FUNNELS AND UNIFIT MANIFOLD

STERILE FUNNELS AND FILTRATION MEMBRANES

Cobetter Ascle V Filtration Funnels are all-in-one funnel & filter systems, with 0.2µm, 0.45µm and 0.8µm, 47mm gridded, available in 100mL, 250mL sizes.

UniFit Manifold

The Cobetter UniFit manifold works with optimal hardware and consumables, especially suited for Ascle filtration funnels and funnel systems. It has the same features with a traditional manifold, yet is more flexible and has light structure.

- Stainless steel construction with mirror finish, easy to clean and sterilize
- 3-place head design allows simultaneously suction filtration to improve work efficiency
- Filtering head can be quickly sterilized via flame for continuous lab operation
- Filtering head can be easily dismantled for heat sterilization
- Multiple filtering heads are available for two kinds of membrane: 47mm and 50mm
- Sterilization: by autoclaving (max.134°C), by dry heat sterilization (max.180°C), or by flaming.

Ascle V Filtration Unit

ASCLE V FILTRATION FUNNELS - ORDERING INFORMATION

EXAMPLE: **A47V-GMC0022100** = Ascle V funnel, white membrane, gridded, 0.22 µm, 100 mL volume, 10 pieces

A47V	—	<input type="text"/>	<input type="text" value="G"/>	<input type="text" value="MC"/>	<input type="text"/>	<input type="text"/>
		Membrane Color	Gridded	Membrane	Pore Size	Volume
		Blank () = White L = Black*	G = Gridded	MC = Mixed Cellulose Ester	0022 = 0.22 µm 0045 = 0.45 µm	100 = 100 mL 250 = 250 mL

UNIFIT SS MANIFOLD - ORDERING INFORMATION

Part No.: M301SS = UniFit SS Manifold
3-place, 47 mm/50 mm membrane diameter, 43.5 x 10.3 x 12 cm
