

GWQ CAPSULE FILTERS

DISPOSABLE FILTERS FOR WATER SAMPLING

Cobetter GWQ Capsule Filters are designed for the filtration and subsequent analysis of water.

Features

- Disposable capsule filter design for easy operation.
- Filtration area up to 600cm² ensures high flow rate and quick sampling process
- High purity membrane to minimize background residuals

SPECIFICATIONS

Filtration Media	PES
Pore Size	0.45 µm, 1.0 µm
Housing, Core, and Support Material	Polypropylene
Sealing Technology	Thermal bonding
Effective Filtration Area	~ 600 cm ²
Nominal Dimensions	Housing Length: 126 mm Housing Diameter: 73 mm
Inlet/Outlet Connections	Inlet: 1/8" NPT + 1/2" Stepped Hose Barb Outlet: 1/8" NPT

ORDERING INFORMATION

Cat. No.	Pore Size	Membrane	Package
GWQ-SPSSM0045P	0.45 µm	Single Layer Symmetric	1 piece
GWQ-APSHA0100P	1.0 µm	Single Layer Asymmetric	1 piece

Typical Applications

- Water Analysis
- Ground Water Sampling
