

S58 FILTRATION UNITS

Pre-sterilized disposable filtration units with funnel, filter, and petri-dish all-in-one system

S58 FILTRATION UNITS

PRE-STERILIZED DISPOSABLE FILTRATION UNITS

S58 filtration units are gamma pre-sterilized ready-to-use disposable filtration units. They combine filter funnel, membranes and petri dish into one comprehensive filtration unit to reduce operating work and cross contamination.

Features

- All-in-one system, funnel & filter & petri dish
- Available in 100ml
- Reduce contamination and labor work
- Ready to use, pre-sterilized
- Filter Diameter: 58mm
- Gridded

SPECIFICATIONS

Filtration Media	PVDF
Pore Size	0.22 μ m, 0.45 μ m
Volume	100mL
Filter Diameter	58 mm

Typical Applications

- Microbiological Analysis

ORDERING INFORMATION

EXAMPLE: **S58-PVDF0022M** = PVDF 58 mm dia. white gridded membrane, 0.22 μ m, 100 mL, 1 pc/pk

S58 –

Filter Media

PVDF = PVDF (gridded)

Pore Size

0022 = 0.22 μ m

0045 = 0.45 μ m
